EXPERIENCE

FRONTEND DEVELOPER INTERN - @f1Studioz (06 months)

- During my internship, I developed web apps using HTML, JavaScript, CSS frameworks, React JS, Redux, Angular, and other tools.
- I mastered Figma design replication, integrated APIs, and collaborated using Git.
- A strong team player with effective communication skills.

PROJECTS

FOODIE - Food Delivery Web Application

- Used technologies and tools: React.Js | Tailwind CSS | Geolocation | Custom hooks | Redux Toolkit | OpenWeather API | Swiggy API
- Developed Foodie: A food delivery platform with React.Js, Tailwind CSS, Swiggy API for restaurants, and geolocation. Custom hooks, Redux Toolkit, and OpenWeather API for seamless exploration.

TRELLO CLONE - Task Management - Trello-Inspired Features

- Used technologies: React.Js | localStorage | React-Router | State Management
- Developed 'Task Manager': An Angular-based collaborative project platform mirroring Trello's features. Integrated authentication, dynamic UI, JSON Server Backend, and diverse features for seamless project management.

TECHIE - All in one productivity Web Application

- Used technologies: React.Js | localStorage | React-Router | State Management
- Designed and created a responsive all-in-one productivity web app featuring myNotes, Todos, Budgets, Color Palette, and Accordion-style Q/A set with pagination and search.

CRYPTOCOSM - A Cryptocurrency Web Application

- used technologies: React.Js | RTK Query | RapidAPI
- Built a 'Cryptocosm' web app using React.js and RapidAPI for real-time cryptocurrency updates, market stats, and news.
